*“The work to be done is indeed enormous! It requires the support and concerted efforts of all good-hearted people who can give of their goods, their money, and themselves.”*

- Fr. Julius Bwowe

*“Thank You deeply for all the love, the support, and the efforts to uplift the lives of our less fortunate in Uganda!”*

- Fr. Julius Bwowe

in Kampala and neighboring districts in  
Uganda, Africa

The Julius Foundation 

# Who We Are

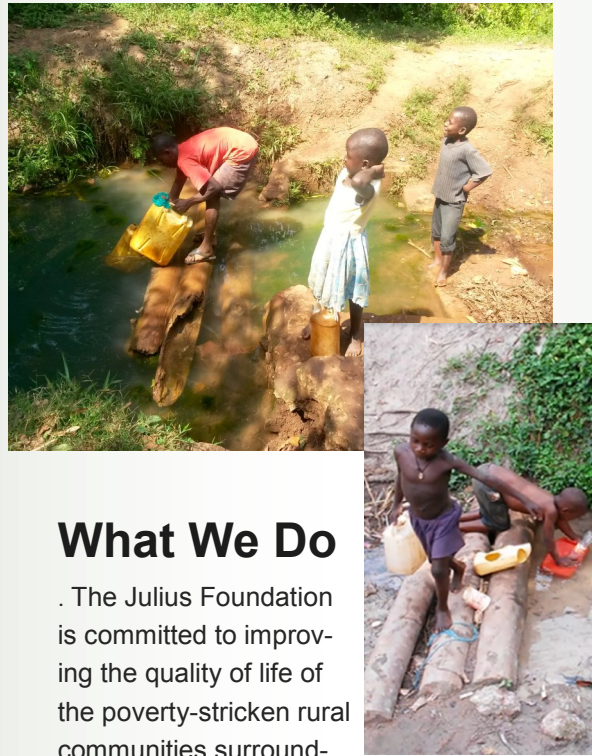

The Julius Foundation (TJF) is a charitable non-profit organization that was incorporated in Helena, MT in 2014. We established our organization to assist Fr. Julius Bwowe, a pastor in the Diocese of Kampala, Uganda, who oversees the pastoral care of over 60,000 impoverished residents.

Fr. Julius has been visiting the Helena community since 2006 to raise awareness of the substandard living conditions of his people. The Cathedral of St. Helena soon after designated his parish of Our Lady of Assumption as a sister ministry. In order to better support Fr. Julius, parish members of the Cathedral of St. Helena formed TJF as a tax exempt vehicle for donations and to access local, national and international grant sources.

TJF is also collaborating with the Carroll College chapter of Engineers Without Borders (EWB) in order to meet critical water and sanitation needs in Fr. Julius' diocese.

## The need is so great

Over the years Fr. Julius has described the extreme poverty of his parishioners. Families of 8 to 10 individuals rely on less than \$1 a day. Many of the residents' water sources are dirty and contaminated, and they have no healthcare programs to treat the many diseases caused by drinking unsanitary water. His community also struggles to develop due to illiteracy and a lack of suitable edu-

## What We Do

The Julius Foundation is committed to improving the quality of life of the poverty-stricken rural communities surrounding Kampala, Uganda. Fr. Julius has identified a number of areas of need that desperately call for developmental improvement. Our top priorities are:

- Installing water systems and sanitation facilities to provide clean, available sources of water
- Improving education by providing facilities, supplies, and sponsorship programs

## Other projects

As our organization continues to grow, The Julius Foundation plans to address further crucial needs including healthcare programs and medical care facilities, food security, transportation improvements, and building

# Our Success Stories

Since Fr. Julius first began traveling to the United States in 2006, great strides have been made to aid his suffering people in Uganda. In the ten years following his arrival many funds have been raised to assist his projects. We have already used a portion of these funds to bring relief to his people by:

- Rebuilding the roof on Our Lady of the Rosary Church
- Installing cisterns for collecting rain water at Our Lady of Assumption parish
- Providing funds to implement the EWB program to install clean water systems near Holy Trinity School and surrounding community
- Annually providing Fr. Julius with cash donations for distribution wherever he sees essential

## More about our story

Since Fr. Julius' initial visit, the Julius Foundation has greatly strengthened its connections, especially with the Cathedral of St. Helena, St. Paul's United Methodist Church, the Helena community, and supporters in other states.
